Description of project:

### Conditions for project

All data, specifications and other information provided by the company, as well as all products, data, specifications, reports etc. made by the teachers and/or students of the academy, related to the solution of the main project, or whatever has been produced related to the product, belongs to the company as property. The material can only be used by teachers and students for educational purposes and in connection with the project exams. Any other use of the materials only can be done, with the permissions from the company, in writing.

The two final exam projects are the projects where the students demonstrate their skills in multimedia design and they will be evaluated for at the final project exams. Therefore it is not to be expected that the project ends up in a final product, ready for implantation in the company.

By signature it is confirmed that the company are aware of and agree with these terms.

### Resources for project

The academy provides guidance to the students and a supervisor will be connected to the group. In the full project period meetings between the supervisor and the students will be held.

The company has a contact person, whom in the project period will be able to answer questions related to the company. The students and the contact person make own agreements about, how the contact should run, ad-hoc or as confirmed meetings.

It is possible for the company to offer workspace to the students. Details about such a possible arrangement are made by the company and the students.

### Publication of company information's

As a part of the academy's quality reputation, we like to make awareness about the collaboration between the business sector and the students. We would like your permission to publish the name of the company included a short description of the project on our website:
